

SSC Quant Booster

Thematic Test Series (Tier I & Tier II)

CYCLE 1 of 3 — Revision Round 1

SUBJECT	CODE	THEME	TOPICS
NUMBER SYSTEM	SSC-LoG-2027-01	Number System Basics	• Classification of Numbers • Divisibility Rules • Factors & Multiples • Unit Digit Problems • Remainder Theorem • Number of Factors & Sum of Factors • Base System Conversion • Cyclicity of Numbers • Prime Numbers & Co-primes • Successive Division
NUMBER SYSTEM	SSC-LoG-2027-02	HCF & LCM	• HCF by Factorization • HCF by Division Method • LCM by Factorization • Relation between HCF and LCM • HCF & LCM of Fractions • HCF & LCM of Decimals • Applications - Bells Ringing Together • Applications - Traffic Lights • Word Problems on Largest/Smallest Number • HCF & LCM in Word Problems
NUMBER SYSTEM	SSC-LoG-2027-03	Simplification & Approximation	• BODMAS Rule • Simplification of Fractions • Surds & Indices • Rationalization of Surds • Approximation Techniques • Simplification of Decimals • Vedic Math Shortcuts • Simplification with Powers • Value-based Simplification (find x) • Approximation-based PYQ Patterns
ARITHMETIC	SSC-LoG-2027-04	Percentage	• Percentage Basics & Conversion • Percentage Increase & Decrease • Successive Percentage Change • Percentage Points vs Percentage • Population-based Percentage Problems • Percentage in Elections • Fraction to Percentage Shortcuts • Percentage Applied to Profit & Loss • Percentage in Data Interpretation • Percentage Error Problems

SUBJECT	CODE	THEME	TOPICS
ARITHMETIC	SSC-LoG-2027 -05	Profit, Loss & Discount	• Basic Profit & Loss Concepts • Cost Price & Selling Price Relations • Successive Discounts • Marked Price & Discount • Profit & Loss with Percentage Combined • False Weight Problems • Dishonest Dealer Problems • Profit & Loss on Whole vs Part • Discount Series Shortcuts • Profit & Loss in Data Interpretation
ARITHMETIC	SSC-LoG-2027 -06	Ratio, Proportion & Partnership	• Ratio Basics & Simplification • Proportion & Continued Proportion • Compound Ratio • Direct & Inverse Proportion • Partnership - Equal Investment • Partnership - Unequal Investment & Time • Sharing Profit in Ratios • Mixture of Two or More Ratios • Variation Problems • Ratio-based Word Problems
ARITHMETIC	SSC-LoG-2027 -07	Average	• Average Basics • Weighted Average • Average of Consecutive Numbers • Change in Average on Replacement • Average Speed Problems • Average Age Problems • Average in Cricket/Runs Problems • Combined Average of Groups • Average with Exclusion/Inclusion • Average-based Data Interpretation
ARITHMETIC	SSC-LoG-2027 -08	Mixture & Alligation	• Alligation Rule Basics • Mixture of Two Ingredients • Mixture of Three or More Ingredients • Replacement Problems • Milk & Water Mixture Problems • Price-based Alligation • Alcohol Concentration Problems • Alligation with Ratios • Alligation Shortcuts • Mixture-based Word Problems
ARITHMETIC	SSC-LoG-2027 -09	Simple & Compound Interest	• Simple Interest Basics • Compound Interest Basics • Difference between SI and CI • Compound Interest - Half Yearly/Quarterly • Installment-based Problems • Rate of Interest Variation • Interest Compounded Annually vs Other Periods • Growth & Depreciation Problems • SI/CI in Word Problems • Interest-based Data Interpretation

SUBJECT	CODE	THEME	TOPICS
ARITHMETIC	SSC-LoG-2027 -10	Time & Work	• Basic Time & Work Concepts • Work Efficiency Method • Men, Women & Children Work Problems • Work and Wages • Pipes and Cisterns Basics • Pipes Filling & Emptying Together • Leak in a Tank Problems • Work Alternately Problems • Combined Work with Different Rates • Time & Work Data Interpretation
ARITHMETIC	SSC-LoG-2027 -11	Time, Speed & Distance	• Basic Speed-Distance-Time Relations • Relative Speed - Same Direction • Relative Speed - Opposite Direction • Problems on Trains • Trains Crossing Platforms/Poles • Boats and Streams • Average Speed for Journey • Races and Games of Skill • Circular Motion Problems • Speed-based Data Interpretation
ALGEBRA	SSC-LoG-2027 -12	Algebraic Identities & Expressions	• Basic Algebraic Identities • Factorization of Expressions • Value-based Identity Problems • Higher Degree Identities • Algebraic Fractions Simplification • Componendo & Dividendo • Symmetric Function Problems • Minimum & Maximum Value Problems • Algebraic Word Problems • Identity-based Shortcuts
ALGEBRA	SSC-LoG-2027 -13	Linear & Quadratic Equations	• Linear Equations in One Variable • Linear Equations in Two Variables • Word Problems using Linear Equations • Quadratic Equations - Basics • Roots of Quadratic Equations • Nature of Roots • Sum and Product of Roots • Forming Equations from Roots • Quadratic Word Problems • Age-based Equation Problems
ALGEBRA	SSC-LoG-2027 -14	Sequence, Series & Progressions	• Arithmetic Progression Basics • Sum of AP Series • Geometric Progression Basics • Sum of GP Series • nth Term Problems • Mixed Series Problems • Sum of Squares & Cubes Series • Series-based Number Patterns • Missing Number in Series • Series-based Word Problems

SUBJECT	CODE	THEME	TOPICS
DATA HANDLING	SSC-LoG-2027 -15	Statistics	• Mean of Ungrouped Data • Median of Ungrouped Data • Mode of Ungrouped Data • Mean of Grouped Data • Range & Variance Basics • Standard Deviation Basics • Cumulative Frequency Problems • Statistics Word Problems • Data Comparison Problems • Statistics-based PYQ Patterns
DATA HANDLING	SSC-LoG-2027 -16	Probability & Combinatorics	• Basic Probability Concepts • Probability with Cards • Probability with Dice • Probability with Coins • Conditional Probability Basics • Permutation Basics • Combination Basics • Permutation & Combination Word Problems • Probability Word Problems • P&C; in Selection & Arrangement
MISCELLANEOUS	SSC-LoG-2027 -17	Number Series & Reasoning-linked Math	• Missing Term Series • Wrong Term Series • Alphanumeric Series with Numbers • Number Pattern Puzzles • Magic Square Problems • Age-based Puzzle Problems • Clock-based Numeric Problems • Calendar-based Numeric Problems • Data Sufficiency Basics • Miscellaneous Quant Puzzles

CYCLE 2 of 3 — Revision Round 2

SUBJECT	CODE	THEME	TOPICS
NUMBER SYSTEM	SSC-LoG-2027 -18	Number System Basics	• Classification of Numbers • Divisibility Rules • Factors & Multiples • Unit Digit Problems • Remainder Theorem • Number of Factors & Sum of Factors • Base System Conversion • Cyclicity of Numbers • Prime Numbers & Co-primes • Successive Division

SUBJECT	CODE	THEME	TOPICS
NUMBER SYSTEM	SSC-LoG-2027 -19	HCF & LCM	• HCF by Factorization • HCF by Division Method • LCM by Factorization • Relation between HCF and LCM • HCF & LCM of Fractions • HCF & LCM of Decimals • Applications - Bells Ringing Together • Applications - Traffic Lights • Word Problems on Largest/Smallest Number • HCF & LCM in Word Problems
NUMBER SYSTEM	SSC-LoG-2027 -20	Simplification & Approximation	• BODMAS Rule • Simplification of Fractions • Surds & Indices • Rationalization of Surds • Approximation Techniques • Simplification of Decimals • Vedic Math Shortcuts • Simplification with Powers • Value-based Simplification (find x) • Approximation-based PYQ Patterns
ARITHMETIC	SSC-LoG-2027 -21	Percentage	• Percentage Basics & Conversion • Percentage Increase & Decrease • Successive Percentage Change • Percentage Points vs Percentage • Population-based Percentage Problems • Percentage in Elections • Fraction to Percentage Shortcuts • Percentage Applied to Profit & Loss • Percentage in Data Interpretation • Percentage Error Problems
ARITHMETIC	SSC-LoG-2027 -22	Profit, Loss & Discount	• Basic Profit & Loss Concepts • Cost Price & Selling Price Relations • Successive Discounts • Marked Price & Discount • Profit & Loss with Percentage Combined • False Weight Problems • Dishonest Dealer Problems • Profit & Loss on Whole vs Part • Discount Series Shortcuts • Profit & Loss in Data Interpretation
ARITHMETIC	SSC-LoG-2027 -23	Ratio, Proportion & Partnership	• Ratio Basics & Simplification • Proportion & Continued Proportion • Compound Ratio • Direct & Inverse Proportion • Partnership - Equal Investment • Partnership - Unequal Investment & Time • Sharing Profit in Ratios • Mixture of Two or More Ratios • Variation Problems • Ratio-based Word Problems

SUBJECT	CODE	THEME	TOPICS
ARITHMETIC	SSC-LoG-2027 -24	Average	• Average Basics • Weighted Average • Average of Consecutive Numbers • Change in Average on Replacement • Average Speed Problems • Average Age Problems • Average in Cricket/Runs Problems • Combined Average of Groups • Average with Exclusion/Inclusion • Average-based Data Interpretation
ARITHMETIC	SSC-LoG-2027 -25	Mixture & Alligation	• Alligation Rule Basics • Mixture of Two Ingredients • Mixture of Three or More Ingredients • Replacement Problems • Milk & Water Mixture Problems • Price-based Alligation • Alcohol Concentration Problems • Alligation with Ratios • Alligation Shortcuts • Mixture-based Word Problems
ARITHMETIC	SSC-LoG-2027 -26	Simple & Compound Interest	• Simple Interest Basics • Compound Interest Basics • Difference between SI and CI • Compound Interest - Half Yearly/Quarterly • Installment-based Problems • Rate of Interest Variation • Interest Compounded Annually vs Other Periods • Growth & Depreciation Problems • SI/CI in Word Problems • Interest-based Data Interpretation
ARITHMETIC	SSC-LoG-2027 -27	Time & Work	• Basic Time & Work Concepts • Work Efficiency Method • Men, Women & Children Work Problems • Work and Wages • Pipes and Cisterns Basics • Pipes Filling & Emptying Together • Leak in a Tank Problems • Work Alternately Problems • Combined Work with Different Rates • Time & Work Data Interpretation
ARITHMETIC	SSC-LoG-2027 -28	Time, Speed & Distance	• Basic Speed-Distance-Time Relations • Relative Speed - Same Direction • Relative Speed - Opposite Direction • Problems on Trains • Trains Crossing Platforms/Poles • Boats and Streams • Average Speed for Journey • Races and Games of Skill • Circular Motion Problems • Speed-based Data Interpretation

SUBJECT	CODE	THEME	TOPICS
ALGEBRA	SSC-LoG-2027 -29	Algebraic Identities & Expressions	• Basic Algebraic Identities • Factorization of Expressions • Value-based Identity Problems • Higher Degree Identities • Algebraic Fractions Simplification • Componendo & Dividendo • Symmetric Function Problems • Minimum & Maximum Value Problems • Algebraic Word Problems • Identity-based Shortcuts
ALGEBRA	SSC-LoG-2027 -30	Linear & Quadratic Equations	• Linear Equations in One Variable • Linear Equations in Two Variables • Word Problems using Linear Equations • Quadratic Equations - Basics • Roots of Quadratic Equations • Nature of Roots • Sum and Product of Roots • Forming Equations from Roots • Quadratic Word Problems • Age-based Equation Problems
ALGEBRA	SSC-LoG-2027 -31	Sequence, Series & Progressions	• Arithmetic Progression Basics • Sum of AP Series • Geometric Progression Basics • Sum of GP Series • nth Term Problems • Mixed Series Problems • Sum of Squares & Cubes Series • Series-based Number Patterns • Missing Number in Series • Series-based Word Problems
DATA HANDLING	SSC-LoG-2027 -32	Statistics	• Mean of Ungrouped Data • Median of Ungrouped Data • Mode of Ungrouped Data • Mean of Grouped Data • Range & Variance Basics • Standard Deviation Basics • Cumulative Frequency Problems • Statistics Word Problems • Data Comparison Problems • Statistics-based PYQ Patterns
DATA HANDLING	SSC-LoG-2027 -33	Probability & Combinatorics	• Basic Probability Concepts • Probability with Cards • Probability with Dice • Probability with Coins • Conditional Probability Basics • Permutation Basics • Combination Basics • Permutation & Combination Word Problems • Probability Word Problems • P&C; in Selection & Arrangement

SUBJECT	CODE	THEME	TOPICS
MISCELLANEOUS	SSC-LoG-2027 -34	Number Series & Reasoning-linked Math	• Missing Term Series • Wrong Term Series • Alphanumeric Series with Numbers • Number Pattern Puzzles • Magic Square Problems • Age-based Puzzle Problems • Clock-based Numeric Problems • Calendar-based Numeric Problems • Data Sufficiency Basics • Miscellaneous Quant Puzzles

CYCLE 3 of 3 — Revision Round 3

SUBJECT	CODE	THEME	TOPICS
NUMBER SYSTEM	SSC-LoG-2027 -35	Number System Basics	• Classification of Numbers • Divisibility Rules • Factors & Multiples • Unit Digit Problems • Remainder Theorem • Number of Factors & Sum of Factors • Base System Conversion • Cyclicity of Numbers • Prime Numbers & Co-primes • Successive Division
NUMBER SYSTEM	SSC-LoG-2027 -36	HCF & LCM	• HCF by Factorization • HCF by Division Method • LCM by Factorization • Relation between HCF and LCM • HCF & LCM of Fractions • HCF & LCM of Decimals • Applications - Bells Ringing Together • Applications - Traffic Lights • Word Problems on Largest/Smallest Number • HCF & LCM in Word Problems
NUMBER SYSTEM	SSC-LoG-2027 -37	Simplification & Approximation	• BODMAS Rule • Simplification of Fractions • Surds & Indices • Rationalization of Surds • Approximation Techniques • Simplification of Decimals • Vedic Math Shortcuts • Simplification with Powers • Value-based Simplification (find x) • Approximation-based PYQ Patterns

SUBJECT	CODE	THEME	TOPICS
ARITHMETIC	SSC-LoG-2027 -38	Percentage	- Percentage Basics & Conversion - Percentage Increase & Decrease - Successive Percentage Change - Percentage Points vs Percentage - Population-based Percentage Problems - Percentage in Elections - Fraction to Percentage Shortcuts - Percentage Applied to Profit & Loss - Percentage in Data Interpretation - Percentage Error Problems
ARITHMETIC	SSC-LoG-2027 -39	Profit, Loss & Discount	- Basic Profit & Loss Concepts - Cost Price & Selling Price Relations - Successive Discounts - Marked Price & Discount - Profit & Loss with Percentage Combined - False Weight Problems - Dishonest Dealer Problems - Profit & Loss on Whole vs Part - Discount Series Shortcuts - Profit & Loss in Data Interpretation
ARITHMETIC	SSC-LoG-2027 -40	Ratio, Proportion & Partnership	- Ratio Basics & Simplification - Proportion & Continued Proportion - Compound Ratio - Direct & Inverse Proportion - Partnership - Equal Investment - Partnership - Unequal Investment & Time - Sharing Profit in Ratios - Mixture of Two or More Ratios - Variation Problems - Ratio-based Word Problems
ARITHMETIC	SSC-LoG-2027 -41	Average	- Average Basics - Weighted Average - Average of Consecutive Numbers - Change in Average on Replacement - Average Speed Problems - Average Age Problems - Average in Cricket/Runs Problems - Combined Average of Groups - Average with Exclusion/Inclusion - Average-based Data Interpretation
ARITHMETIC	SSC-LoG-2027 -42	Mixture & Alligation	- Alligation Rule Basics - Mixture of Two Ingredients - Mixture of Three or More Ingredients - Replacement Problems - Milk & Water Mixture Problems - Price-based Alligation - Alcohol Concentration Problems - Alligation with Ratios - Alligation Shortcuts - Mixture-based Word Problems

SUBJECT	CODE	THEME	TOPICS
ARITHMETIC	SSC-LoG-2027 -43	Simple & Compound Interest	• Simple Interest Basics • Compound Interest Basics • Difference between SI and CI • Compound Interest - Half Yearly/Quarterly • Installment-based Problems • Rate of Interest Variation • Interest Compounded Annually vs Other Periods • Growth & Depreciation Problems • SI/CI in Word Problems • Interest-based Data Interpretation
ARITHMETIC	SSC-LoG-2027 -44	Time & Work	• Basic Time & Work Concepts • Work Efficiency Method • Men, Women & Children Work Problems • Work and Wages • Pipes and Cisterns Basics • Pipes Filling & Emptying Together • Leak in a Tank Problems • Work Alternately Problems • Combined Work with Different Rates • Time & Work Data Interpretation
ARITHMETIC	SSC-LoG-2027 -45	Time, Speed & Distance	• Basic Speed-Distance-Time Relations • Relative Speed - Same Direction • Relative Speed - Opposite Direction • Problems on Trains • Trains Crossing Platforms/Poles • Boats and Streams • Average Speed for Journey • Races and Games of Skill • Circular Motion Problems • Speed-based Data Interpretation
ALGEBRA	SSC-LoG-2027 -46	Algebraic Identities & Expressions	• Basic Algebraic Identities • Factorization of Expressions • Value-based Identity Problems • Higher Degree Identities • Algebraic Fractions Simplification • Componendo & Dividendo • Symmetric Function Problems • Minimum & Maximum Value Problems • Algebraic Word Problems • Identity-based Shortcuts
ALGEBRA	SSC-LoG-2027 -47	Linear & Quadratic Equations	• Linear Equations in One Variable • Linear Equations in Two Variables • Word Problems using Linear Equations • Quadratic Equations - Basics • Roots of Quadratic Equations • Nature of Roots • Sum and Product of Roots • Forming Equations from Roots • Quadratic Word Problems • Age-based Equation Problems

SUBJECT	CODE	THEME	TOPICS
ALGEBRA	SSC-LoG-2027 -48	Sequence, Series & Progressions	• Arithmetic Progression Basics • Sum of AP Series • Geometric Progression Basics • Sum of GP Series • nth Term Problems • Mixed Series Problems • Sum of Squares & Cubes Series • Series-based Number Patterns • Missing Number in Series • Series-based Word Problems
DATA HANDLING	SSC-LoG-2027 -49	Statistics	• Mean of Ungrouped Data • Median of Ungrouped Data • Mode of Ungrouped Data • Mean of Grouped Data • Range & Variance Basics • Standard Deviation Basics • Cumulative Frequency Problems • Statistics Word Problems • Data Comparison Problems • Statistics-based PYQ Patterns
DATA HANDLING	SSC-LoG-2027 -50	Probability & Combinatorics	• Basic Probability Concepts • Probability with Cards • Probability with Dice • Probability with Coins • Conditional Probability Basics • Permutation Basics • Combination Basics • Permutation & Combination Word Problems • Probability Word Problems • P&C; in Selection & Arrangement
MISCELLANEOUS	SSC-LoG-2027 -51	Number Series & Reasoning-linked Math	• Missing Term Series • Wrong Term Series • Alphanumeric Series with Numbers • Number Pattern Puzzles • Magic Square Problems • Age-based Puzzle Problems • Clock-based Numeric Problems • Calendar-based Numeric Problems • Data Sufficiency Basics • Miscellaneous Quant Puzzles
